MEDIAGUARD®
RACK SLEEVE

Secure. Sustainable.

Server rack decommissioning made easy.

ACCEPTABLE MEDIA

42U Server Rack   45U Server Rack   48U Server Rack

Clear Space for Easy Sanning

Tamper Proof Ratchets

BUILT-IN ENVIRONMENTAL HEALTH AND SAFETY

- Improves visibility and handling - the sleeve is designed for clean, snag-free handling with clearly marked grab points, making it safer for technicians to maneauver server racks.

- Minimizes tripping hazards - unlike plastic wrap that can end up on the floor, these reusable sleeves stay secure and contained.

- Compliant with ISO/IEC 27001 and helps achieve ESG goals.

KEY FEATURES AND BENEFITS

- Durable nylon sleeve with reinforced stitching and tamper-evident tabs to prevent unauthorized access.

- Secure ratchet-tightening system - tamper proof ratchet mechanism ensures a tight and secure fit around the rack

- Customizable fit - designed to fit any standard server or network rack, with options for custom sizing.

- One person deployment - lightweight and easy to install with one technician.

- Reusable & trackable - built for repeated use with optional tracking features for secure transport and audit trails.

MEDIAGUARD® RACK SLEEVE
TECHNICAL SPECIFICATIONS

Product Name and Model	MediaGuard® Rack Sleeve
Dimensions	43" x 25" x 80"(109.5 cm x 63.5 cm x 203.5 cm) (L x W x H)
Weight (excludes packing and crating)	5.5 lbs. (2.5 kg)
Shipping Weight (includes packing, crating, and pallet)	7 lbs. (3.2 kg)
Shipping Dimensions	15" x 6" x 14" "(38 cm x 15.5 cm x 36 cm) (L x W x H)
Temperature Resistance	59 - 500 °F (15 – 260°C)
Acceptable Media	Compatible with standard 19" (482.6 mm) EIA-310-D server racks in 42U, 45U, and 48U configurations. Suitable up to depth of 1,000 mm.
Deployment/ Transportability	Suitable for server racks requiring tamper-evident and trackable protection during transport or storage.
Safety	Durable nylon sleeve with reinforced stitching and tamper-evident tabs to prevent unauthorized access. Secure ratchet-tightening system - tamper-proof ratchet mechanism ensures a tight and secure fit around the rack
Sustainability / Longevity	Reusable & trackable - built for repeated use. Helps achieve ESG goals
Compliance	Supports ISO/IEC 27001 compliance as a transport and storage security control.
