Enterprise Data Destruction Solutions

SECURITY • COMPLIANCE • SUSTAINABILITY

## MediaDice® All Media Disintegrator A2

**240-480 HDDs & 1,404 SSDs per hour**  
All-media disintegrator reducing materials to 2mm or less, meeting DIN 66399 security levels with a built-in magnetic separator for recycling.

## MediaDice® Combo Disintegrator

**1,000 HDDs & 7,200 SSDs per hour**  
High-volume HDD and SSD destroyer, shredding drives into 20mm and 5mm particles with auto unjam functionality.

## MediaDice® High Throughput SSD Disintegrator

**1,200 SSDs per hour**  
On-site shredder for SSDs and electronic media, reducing materials to 5mm particles for compliant destruction.

## MediaDice® SSD Disintegrator-2C

**240 SSDs per hour**  
A high-volume SSD disintegrator trusted by global tech companies, reducing media to sub-2mm particles for compliant on-site destruction.

## MediaVise® Compact Combo Destroyer

**120 SSDs/HDDs per hour**  
A compact, NSA/CSS-approved HDD destroyer delivering 20 tons of force to crush every inch of the drive in under 30 seconds.

## MediaVise® Compact V-Spike SSD Destroyer

**120 SSDs per hour**  
Combines V-Spike technology with up to 20 tons of force to destroy SSD components.

## MediaVise® Rackmount Dual Sanitizer

**120 HDDs per hour**  
A compact, rack-mounted solution combining a degausser and hard drive crusher for complete data erasure in one portable system.

## MediaFlux® Degausser

**120 HDDs per hour**  
A compact degausser delivering up to 2 tesla of magnetic force to permanently erase hard drive data.

## MediaVise® Rackmount HDD Destroyer

**120 HDDs per hour**  
NSA/CSS-approved 9U rack-mounted HDD destroyer using proprietary hydraulic crushing technology.

# PRODUCT ACCESSORIES

## Available for All Machines

Compatible across the entire product line.  
Some accessories are machine-specific.

### MediaVision® Scanner API

Integrates with your asset management system to log each drive's information

### MediaVision® Scanner USB

Captures information from end-of-life drives and stores it on a USB

### MediaVault® Bin

Tamper-proof bin for transporting end-of-life hard drives and sensitive media.

### MediaVault® Adjustable Bin

Secure bin with hydraulic lift for easy, safe transport of end-of-life drives.

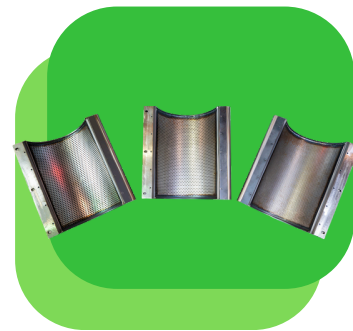

### MediaGuard® Rack Sleeve

Secure, reusable sleeve for protecting server racks during decommissioning.

### Tape Shredding Cyclone

Media shredding system processing up to 480 tapes per hour and other media.

### Interchangeable Screen Sizes

2mm, 4mm, 6mm, 8mm, 10mm to meet your data destruction requirements

**A2 Only**

**A2 Only**

**MediaDice A2 Accessories:** (Tape Shredding Cyclone & Interchangeable Screens) are exclusively compatible with the A2 machine.

**All other accessories are universal across the full Phiston product line.**

# On-Site Shredding

Secure, compliant data destruction directly at your facility - engineered for performance and reliability.

✓ COMPLIANT

DoD 5220.22-M, NIST 800-88, GDPR, R2, DIN 66399, ISO 27001/14001/45001

## • WHY CHOOSE US

### Chain-of-Custody

Strict tamper-resistant control from pickup to final destruction.

### Rapid Dispatch

Fleet ready to reach your facility with minimal disruption.

### Downstream Recycling

Responsible, eco-friendly handling of all destroyed media.

### Certified Techs

Highly trained staff ensuring compliant destruction every time.
